

Annex 6**PROCEDURES FOR REVIEW AS REFERRED IN PARAGRAPH 41 OF THE CDM
MODALITIES AND PROCEDURES****A. Background**

1. In accordance with paragraph 5 (o) of the CDM modalities and procedures (CDM M&P), the Executive Board shall elaborate and recommend to the COP (COP/MOP), for adoption at its next session, procedures for conducting the reviews referred to in paragraphs 41 and 65 of the CDM M&P including, *inter alia*, procedures to facilitate consideration of information from Parties, stakeholders and UNFCCC accredited observers. Until their adoption by the COP (COP/MOP), the procedures shall be applied provisionally.
2. Paragraph 41 of the CDM M&P stipulates that the registration by the Executive Board shall be deemed final eight weeks after the date of receipt by the Executive Board of the request for registration, unless a Party involved in the project activity or at least three members of the Executive Board request a review of the proposed CDM project activity. The review by the Executive Board shall be made in accordance with the following provisions:
 - (a) It shall be related to issues associated with the validation requirements;
 - (b) It shall be finalized no later than at the second meeting following the request for review, with the decision and the reasons for it being communicated to the project participants and the public.
3. The draft procedures for review proposed below aim at elaborating on the provisions in paragraph 41, in particular by specifying detailed provisions for requesting a review, the scope of review, modalities for communicating with project participants and the DOE in question, possible outcomes of a review and the coverage of costs related to the review.

B. Request for review

4. A request for review by a Party involved in the proposed project activity shall be sent by the relevant designated national authority to the Executive Board, through the secretariat, using official means of communication (such as recognized official letterhead and signature or an official dedicated e-mail account). The secretariat shall acknowledge the receipt of a request for review and promptly forward the request to the Executive Board via the list-serve.
5. A request for review by a member of the Executive Board shall be made by notifying the Executive Board. The secretariat shall acknowledge the receipt of request for review and promptly forward the request to the Executive Board via the listserve.
6. In accordance with paragraph 41 of the CDM M&P, a review shall be related to issues associated with the validation requirements and a request for review shall, therefore, be specific in this regard.
7. A request for review shall:
 - (a) Include the form “CDM Project Activity Registration Review” (F-CDM-RR) contained in the annex to these procedures¹;
 - (b) Provide reasons in support of the request for review, including any supporting documentation.

¹ The latest version can be downloaded from the UNFCCC CDM web site (<http://unfccc.int/cdm>) and/or obtained electronically from the UNFCCC secretariat.

UNEDITED

8. A request for review shall be considered to be received by the Executive Board as of the date it has been received by the secretariat. A request for review shall not be considered by the Executive Board if it is received after 17:00 GMT of the last day of the eight week period after the receipt of the request for registration.

9. As soon as a Party involved in a proposed CDM project activity or three Executive Board members request a review of a proposed project activity, the following action shall be taken:

(a) The consideration of a review of the proposed project activity shall be included in the proposed agenda of the next Executive Board meeting;

(b) The Executive Board shall notify the project participants and the DOE which validated the proposed project activity that a review has been requested. The project participants and the DOE shall be informed about the date and venue of the next and subsequent Executive Board meetings at which the request for review shall be considered. Stakeholders interested in the review process shall also be given opportunity to attend the next or subsequent Executive Board meeting;

(c) The project participants and the DOE shall each provide a contact person for the review process, including for a conference call, in case the Executive Board would like to address questions to them during the consideration of a review at its meeting;

(d) The proposed project activity shall be marked as being “under review” on the UNFCCC CDM web site and a notification be sent through ‘UNFCCC CDM News’ facility.

C. Scope and modalities of review

10. The Executive Board shall consider, at its next meeting, a request for review and either decide to undertake a review of the proposed project activity or register it as a CDM project activity.

11. If the Executive Board agrees to undertake a review of a proposed project activity, it shall, at the same meeting, decide on:

(a) The scope of the review related to issues associated with validation requirements, based on the consideration in the request for a review;

(b) The composition of a review team. The review team shall consist of two Board members responsible for supervising the review and outside experts, as appropriate.

12. The review team, under the guidance of Board members responsible for supervising the review, shall provide inputs, prepare requests for clarification and further information to the DOE and project participants, analyze information received during the review.

D. Review process

13. The decision by the Board on the scope of the review shall be made publicly available as part of the report of its meeting.

14. Project participants and the DOE which validated the proposed project activity shall be notified of the decision by the Executive Board.

15. A request for clarification and further information shall be sent to the DOE and the project participants. Answers shall be submitted to the review team, through the secretariat, within five (5) working days after the receipt of the request for clarification. The secretariat shall acknowledge the receipt of the answers and forward them to the review team.

UNEDITED

16. The two Board members supervising the review shall be responsible for the compilation of inputs and comments and prepare the recommendation to be forwarded to the Executive Board via list serve at least two weeks before the next Executive Board meeting.

E. Review decision

17. In accordance with paragraph 41 of the CDM modalities and procedures, the review by the Board shall be finalized no later than at the second meeting following a request for review.

18. Taking into consideration recommendations by the two Board members responsible for the review, the Board shall decide on whether:

- (a) To register the proposed project activity;
- (b) To request the DOE and project participants to make corrections based on the findings from the review before proceeding with registration; or
- (c) To reject the proposed project activity.

19. In accordance with paragraph 41, the Board shall communicate the decision to the project participants, the DOE that validated the proposed project activity and the public.

20. If the review indicates any issues relating to performance of the DOE, the Board shall consider whether or not to trigger a spot-checking of the DOE, in accordance with the procedures for accrediting operational entities.

F. Coverage of costs of the request for review

21. The Executive Board shall bear the costs for reviewing a proposed project activity. If the Executive Board decides to reject the registration of a proposed project activity and if a DOE is found in the situation of malfeasance or incompetence, the DOE shall reimburse the Board for the expenses incurred as a result of the review. This provision is subject to review as experience accrues.
