

**Annex 42****Registration****Scope of the review on****“7.5 MW Biomass (Mustard crop residue) based Power Project at RIICO Industrial area, Rajasthan by M/s Amrit Environmental Technologies Pvt. Ltd. (0372)”**

1. The Board agreed to undertake a review of the project activity; “7.5 MW Biomass (Mustard crop residue) based Power Project at RIICO Industrial area, Rajasthan by M/s Amrit Environmental Technologies Pvt. Ltd. (0372)”
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover:
  - (a) an assessment of the application of the methodology AMS-I.D, in particular the validity of the version of the methodology applied;
  - (b) an assessment of the estimation of the baseline emission factor;
  - (c) an assessment of the monitoring plan, in particular the adequacy of the monitoring plan in ensuring that the type of biomass used is in accordance with the approved methodology AMS-I.D;
  - (d) an assessment of the general consistency of cross references in the project documentation.
3. The Board nominated Mr. Rawlestone Moore (lead), Mr. Hans Jürgen Stehr and Mr. Philip Gwage as members of the Review Team of this case. The review team may call on outside expertise in consultation with the Chair of the Board, as appropriate.
