

**Annex 36****Registration****Scope of the review on
“GACL Blended Cement Projects in India (0304)”**

1. The Board agreed to undertake a review of the project activity; “GACL Blended Cement Projects in India (0304)”
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover:
 - (a) an assessment of how the approved methodology ACM0005 has been applied, in particular with respect to the requirement to compensate for negative emission reductions for the project activity in its entirety as opposed to specific plants only;
 - (b) an assessment of the transparency of the baseline calculation, in particular with respect to the selection of the benchmark region and the consistency of cross references between the baseline calculations presented in sections B and Annex 3 of the PDD.
3. The Board nominated Ms. Anastasia Moskalenko (lead), Mr. John Kilani and Mr. Clifford Mahlung as members of the Review Team of this case. The review team may call on outside expertise in consultation with the Chair of the Board, as appropriate.
