

**Annex 31****Registration****Scope of the review on
“ACEL Blended cement project at Sankrail grinding unit” (0861)**

1. The Board agreed to undertake a review of the project activity “ACEL Blended cement project at Sankrail grinding unit” (0861).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover an assessment to determine the additionality of the proposed project activity, in particular the existence and significance of barriers to increasing the level of fly ash in blended cement from the blending level in the baseline; thereby providing information on the financial consequences of the barriers claimed as well as all costs savings related to increasing the fly ash content.
