

**Annex 24****Registration****Scope of the review on
“Optimal utilization of clinker by increasing the additives in cement production at Holcim
Lanka Ltd (HLL), Sri Lanka” (1084)**

1. The Board agreed to undertake a review of the project activity “Optimal utilization of clinker by increasing the additives in cement production at Holcim Lanka Ltd (HLL), Sri Lanka” (1084)
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover an assessment to determine:
 - (a) the additionality of the project activity; and
 - (b) the application of the approved methodology ACM0005 version 3 to the project activity, in particular with regard to the assessment of alternative uses of slag.
