

**Annex 20****Registration****Scope of the review on****“Shri Chamundi Captive Energy Private Limited”, 16MW biomass fired cogeneration plant for supply of power and steam to an industrial facility in Karnataka” (1350)**

1. The Board agreed to undertake a review of the project activity “Shri Chamundi Captive Energy Private Limited”, 16MW biomass fired cogeneration plant for supply of power and steam to an industrial facility in Karnataka” (1350).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review of the baseline determination, in particular how it has been validated that the selected baseline scenario for biomass (B1: biomass residues dumped or left to decay) is likely to occur in the absence of the project activity as some of the types used might have a residual economic value.
