

Annex 22

Registration

Scope of the review on

“Burning of solid biomass for process steam generation for beer manufacture in place of fuel oils at AMBEV’s Branchs Agudos (SP) and Teresina (PI)” (1494)

1. The Board agreed to undertake a review of the project activity “Burning of solid biomass for process steam generation for beer manufacture in place of fuel oils at AMBEV’s Branchs Agudos (SP) and Teresina (PI)” (1494).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review of the additionality of the project activity through an assessment of the:
 - a) prevailing practice barrier, in particular whether biomass boiler operation in beverage manufacturing is not significantly different from those in other process industries in Brazil, and if so whether biomass boiler operation is not a prevailing practice in such industries; and
 - b) prior consideration of the CDM in particular the evidence of actions taken by the PP to secure CDM status for the project activity along with its implementation.
