

VII. Methodological issues under the Convention
(Agenda item 7)

C. Emissions from fuel used for international aviation and maritime transport
(Agenda item 7 (c))

71. The Subsidiary Body for Scientific and Technological Advice (SBSTA) noted the information received from the secretariats of the International Civil Aviation Organization (ICAO) and the International Maritime Organization (IMO) on their ongoing work relating to emissions from fuel used for international aviation and maritime transport, and the views expressed by Parties on this information.

72. The SBSTA invited the secretariats of ICAO and IMO to report, at future sessions of the SBSTA, on the outcomes of their work on this issue.
