

Avaya one-X® Communicator

BUY IT

Unified Communications Client Provides Simple, Intuitive Access to Everyday Communications Tools

OVERVIEW

YOUR ONE-STOP SHOP TO MANAGE AUDIO, VIDEO, AND WEB COMMUNICATIONS

Communicate more efficiently with simple, intuitive access to your everyday communication tools. Get almost-anywhere access to your unified communications capabilities, bringing together voice calling, audio conferencing, corporate directories, and communication logs into one easy-to-use

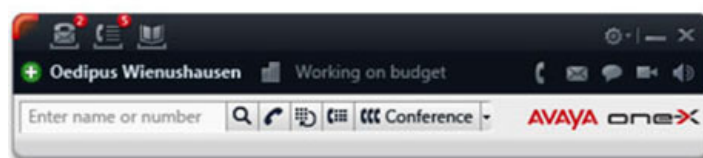

solution on your desktop or laptop. Be highly reachable, manage multiple calls, and set up ad-hoc conferencing with Avaya one-X Communicator.

1. Efficient Communication

Manage your video, voicemail, email, IM, conferencing, and communication history—all from a single interface.

2. High-Definition Video

Improve your productivity, speed decision-making, and save travel expenses with face-to-face communications.

3. Mobile Flexibility

Bring your office with you. Make and receive audio calls on your mobile, desk, or home phone, or using VoIP on your computer.

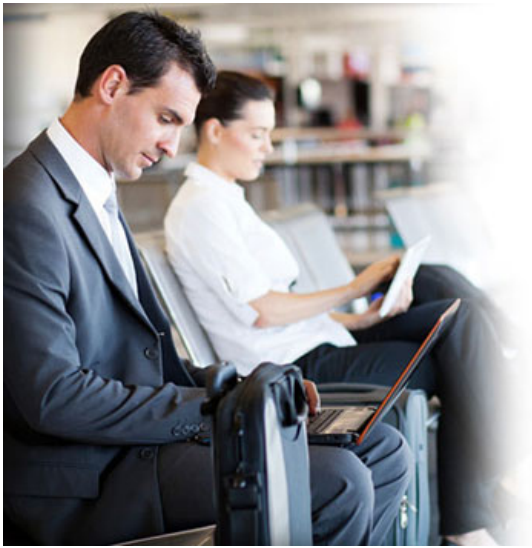

Click to Call

Call anyone in your corporate directory Microsoft Outlook contact list, as well as phone numbers on web pages or in emails.

Make Collaboration Easier

See your colleagues' presence, availability and contact options. Conduct multi-party IM chats. Add video calling to your list of supported options.

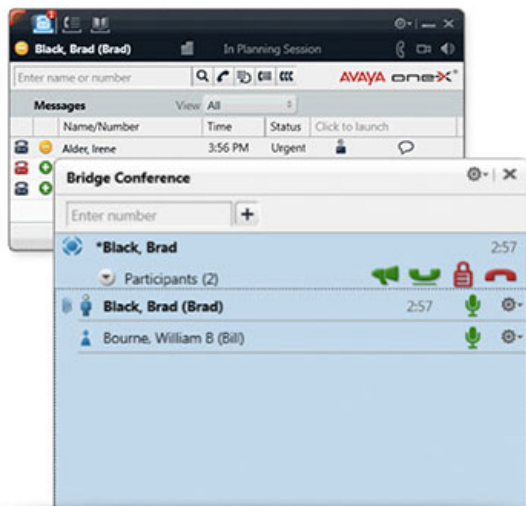

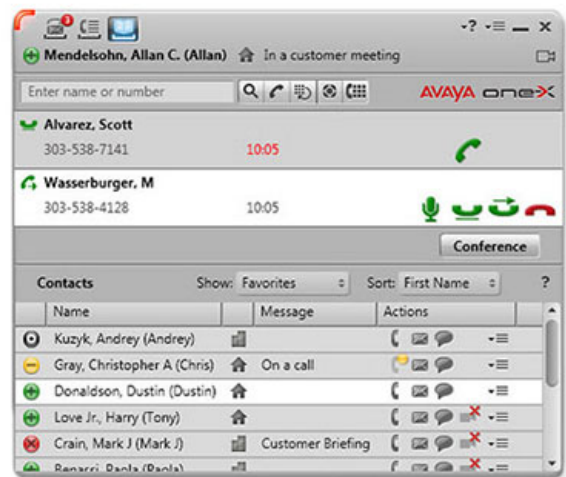

Maintain Business Continuity

Because you can work from virtually anywhere at any time, you can access enterprise systems when customer demand spikes, or when weather or other events make getting to the office difficult.

Provide Flexibility While Controlling Costs

You have complete control over sending and receiving calls. The enterprise manages dialing plans and policies, and routes all calls route through the corporate PBX.

Expand for More Features

You can add visual voicemail, conference bridge control, synchronized call logs and contacts, as well as integration with Avaya one-X Mobile by deploying with Avaya one-X Client Enablement Services.
